

# Kangaroo Inspired Piano Concert

## ANNE EDWARDS

Anne Edwards is a linguist, musician, potter, yogi and animal lover. At the heart of all language for Anne is breath; the language of silence and sound, the stillness between breaths, the language of time and movement measured by breath.

Anne will play 70 minutes of beautiful, spacious piano music, accompanied by images and footage taken by long time carers of the kangaroos they have rehabilitated over many years of hard work, patience, courage and love.

This Concert will take the audience on a relaxing journey of breath. It is not an intellectual concert but rather a somatic experience of finding space to breathe, reflect and find deep calm.

## POSSUMWOOD

This CONCERT will be the main Blue Mountains World Kangaroo Day fundraising event of the 2025 year.

Possumwood Wildlife Sanctuary will be the main recipient of the income from this concert. As well as rescuing and caring for over 500 injured or sick wildlife a year, Possumwood is doing much needed research on Kangaroo behaviour and on developing treatment protocols that are effective for macropods.

They have and are continually developing macropod rescue/care training courses for rescuers and carers.

*Images and videos of our magnificent kangaroos will accompany the music.*
